Objective

Very intelligent college undergraduate looking for a full-time or part-time position of work, or summer research opportunity.

Education

Fayetteville State University (Continuing Education)

Fall 2007- Spring 2012

Continuing senior year with 141 credit hours and a 3.969 grade point average

Majors: Math and Computer Science

Kinston High School

Fall 2001 - Summer 2005

Completed four years at Kinston High School

Graduated with a 3.6 GPA

Experience

Oak Ridge National Laboratory intern (RAMS program)

Summer 2012

Spent summer interning at Oak Ridge National Laboratory in the RAMS program.

Research related to cyber security was conducted with oral and poster presentations given at the end.

Tutor for Saturday School High School Students

Spring Semester 2011

Met with high school students to review different subjects of math, such as Precalculus, Advanced Functions and Modeling, and Algebra II, in preparation for their upcoming competition.

Supplemental Instructor at Fayetteville State University

Fall Semester 2009

Met with students to tutor and answer any questions about College Algebra. Also would go over the course material from the previous class and ask the students to work problems on the board to reinforce what was learned in class.

ASAHI Windshield Wiper Company

Summer 2008

We manufactured windshield wipers. My job was to keep the manufacturing line stocked as best as possible. Items stocked included motors, screws and nuts, metal bars, rubber washers and other small parts.

Alside Window Company

Fall 2006- Summer 2007

We manufactured windows. We used saws and drills to cut and create holes for the windows to function properly. We used tape measures to measure and make accurate cuts on the saws. We learned how to put the window screens together and checked often to make sure that the screens were being made to the right sizes as needed.

Wendy's

Summer 2005 – Spring 2006

Worked as a cook and cashier. Provided food for the customers and exchanged funds between customers also.
