

A Service-Disabled, Veteran-Owned Company

Disabled American Veterans Company, LLC

Corporate Overview

7 February 2011

Disabled American Veterans Company, LLC

DAVCOM at a Glance

Founded in 2005

Headquartered in Oak Ridge, Tennessee

Registered Service-Disabled, Veteran-Owned Business

FOCI Favorable Determination from DOE

Current DOE Customers

- Oak Ridge National Laboratory
- B&W Y-12 Technical Services, LLC

Business Operations

- Engineering & Technical Consulting
- Computer Sciences & Data Analysis
- Environmental Management
- Engineered Equipment (*materials processing*)

Development Capabilities Overview

Industrial Microwave Applications for Advanced Materials Processing

DAVCOM'S Technical Expertise

Specialty Equipment
Design and Fabrication
Microwave Applications Consulting
Advanced Technical Ceramics
Manufacturing
Source Material Heat Treatment
Energy-Efficient Alloy and
Composite Processing
Special Shapes Casting

Potential ORNL Program Applications

Microwave-Assisted Plasma Treatment
for Carbon Fiber Production
Microwave-Assisted Coal
Liquefaction
Other Materials Processing in which
Energy and Time are an Issue...

The DAVCOM Difference

- 1** Access to top-tier, DOE- and DoD-proven personnel
- 2** Management team averaging more than 30 years experience
- 3** Mature accounting and HR infrastructure
- 4** Fulfillment of a key socioeconomic metric through SDVOB status

Experienced Management Team

Mike Smith, Ph.D. | Principal Owner

- 40 years corporate and government program management
 - Microwave and chemical processing
 - Ceramics and materials sciences
 - Environmental sciences
 - Engineering and technical services
- Executive officer in two major environmental companies

John Razor, CHP | President

- 38 years environmental, waste, and engineering management
- \$1B + in domestic and international environmental projects
- Former Shaw Environmental and Infrastructure executive
 - VP of Federal Environmental Restoration Programs
 - Engineering and scientific project management
 - Nuclear health & safety

Current Project Examples

Marine Light-Armored Vehicle Development

- ORNL Computational Sciences and Engineering Division
- Supporting USMC Program Manager's Office
- Conditioned-based Maintenance Systems
 - Senior military vehicle maintenance and logistics
 - Vibration modeling
 - Real-time data collection
 - Senior systems engineering
 - Instrumentation analysis

Current Project Examples (cont.)

Program Module Chemical Analysis

- ORNL DHS Chemical Security Analysis Program
- Chemical reliability testing
 - Determine subroutine errors
 - Correct identified errors
 - Document change protocol

Systems Programming

- ORNL, Neutron Sciences Directorate
- Spallation Neutron Source Program
 - Windows-based systems programming
 - Installation and maintenance of Windows-based computer network

DAVCOM's Growth Strategy

- 1 Continue and develop technical services to computer sciences operations**
- 2 Transition from program consulting to project execution for ORNL**
- 3 Build upon Federal environmental management experience of senior officers**
- 4 Utilize specialty equipment expertise to advance materials processing**

Our Program Promise

DAVCOM Will...

Be an active participant in the development process

Not looking for handouts: just opportunities

Be mission-oriented to the benefit of ORNL

Create a win/win relationship

Be a responsive, reliable resource on day one

Utilize experience to minimize the learning curve

Summary

DAVCOM understands that this program is intended to meet the needs of small businesses and ORNL, respectively. Just as ORNL has the resources to develop a protégé's service capabilities, we have the responsibility to provide value to ORNL by being an active, reliable participant in the Laboratory's Mentor-Protégé Program.
